

Workshop on the gas market modelling for the Quo Vadis project

July 26, 2017, Budapest, Hungary

Venue: *EY Hungary*, Budapest, Váci út 20, 1132

Draft Program:

- 9:30-10:00 Registration
- 10:00 Welcome and introduction – Péter Kaderják (Director, REKK)
- The modelling tool of the Quo Vadis project. Energy policy analysis by the European Gas Market Model (EGMM)
- 10:10 Introduction of the EGMM – Péter Kotek (senior research fellow, REKK)
- Modelling concept; major assumptions; input data; validation; sensitivities
- 10:40 Q&A
- 11:00 Representation of regulated tariffs in the EGMM. The REKK database and calculations for modelling inputs – Enikő Kácsor (research fellow, REKK)
- 11:20 Coffee break
- 11:40 Issues related to building the modelling scenarios, with a special emphasis on the reference scenario, for the Quo Vadis project. Modelling limitations – Borbála Takácsné Tóth (Chief Gas Expert, REKK) and Péter Kaderják
- 12:20 Q&A and open debate - moderated by Péter Kaderják
- 13:30 Workshop concludes
