

COAL PHASE- OUT

**IN THE
CEE
REGION**

**REKK REGIONAL
CONFERENCE
ONLINE**

**10–12:00 AM
7 OCTOBER
2020**

Phasing out coal and lignite power plants is at the heart of the European energy transition. The aim of our workshop is to present the results of recent studies modelling the economic and social effects of coal-phase out in selected CEE countries, to highlight EU policies and initiatives that assist member states and regions, and to show how Central Europe's biggest utilities approach the question in their corporate strategies.
